

CHANGE 3.19

1. The `sim_boilerplate` was modified to include text to the Maintenance Allocation Chart (MAC) Introduction.
2. The `editable_boilerplate` was modified in (`&explistwp.intro.level;`) to support MIL-STD-40051 -1/-2 Change2.
3. The `gim_boilerplate` was modified in the entity (`&ginfowp.handreceipt`).
4. Modified the table for SMR Code Explanation in the (`&introwp.intro;`) in the `pim_boilerplate` from the `tabmat` format to the `<table>` format so the title can be inserted.
5. In the `pim_boilerplate` modified the tables for the Source Code (`&introwp.intro;`) from `<table>` to `<tabmat>`. `<tabmat>` does not have a title.
6. The `tim_boilerplate` public identifier was added to the DTD.
