

CHANGE FOR 3.25

FORMAL PUBLIC IDENTIFIER (FPI)

-//USA-DOD//DTD MIL-STD-2361 TM Assembly REV 3.25 20090834//EN

1. The element <framed.frt> content model was changed to make <revisionsummary> optional. This was requested by LOGSA and confirmed that MIL-STD-40051-1 paragraph 5.2.1.5 allows the element to be optional.

Note: The context matrix does not support this, but the narrative does.
